

## Project Design Phase I Solution Architecture

<b>Team ID</b>	PNT2022TMID36004
<b>Title</b>	Detecting Parkinson's Disease using Machine Learning
<b>Team Members</b>	Pradhicsha M R Vasanth M Gokul R Kathiresh Praveen S Divya G

The architecture helps to identify the steps needed for the project. It helps to break complex problems into subproblems such that we have a clear cut idea of the process and their workflow.

The architecture is as follows:
